

## Project Manager / Consultant (m/f/d) "Water Supply and Wastewater Management Utilities"

### You are looking for

The AHT GROUP AG stands for innovative management consultancy services for technical and financial development cooperation, with technical expertise focusing on: Water Resources Management and Irrigation; Nature Conservation, Forestry and Agriculture; Communal Infrastructure and Governance; and Information Technology and Software Development.

Are you looking for a new professional challenge and would like to contribute to the continued success of our company?

Then this **AHT in-house position** may be just what you're looking for:

#### **Project Manager / Consultant (m/f/d) "Water Supply and Wastewater Management Utilities"**

with detailed knowledge and experience of the structures and processes of public water supply and wastewater management utilities. You will strengthen our **Communal Infrastructure and Governance Department** at our headquarters in Essen and in our partner countries.

### Interested?

Then we look forward to receiving your complete application documents and salary expectations by e-mail to: [vacancies@iht-group.com](mailto:vacancies@iht-group.com)  
Mr. Ingo Rudolf, [rudolf@iht-group.com](mailto:rudolf@iht-group.com), will be pleased to answer any further inquiries you may have.

### What you can expect:

- Managing fascinating projects all around the world, which you will accompany throughout all phases of project development and implementation
- Acquisition of new projects for which you will prepare prequalification documents and technical and financial proposals
- Stimulating exchanges as you advise water supply and wastewater management utilities in partner countries

## What we are looking for:

- A university degree in business administration, economics, political sciences, civil engineering and management or similar
- Relevant professional experience preferably in an international environment
- Experience in organizational development, business planning and financial management is desirable
- Proficiency in English and good working knowledge of French
- Enjoyment of multi-project management with an ability to work to deadlines whilst remaining calm

## What you can look forward to:

- Challenging, interesting work in an international environment and a competitive salary
- Support for your professional and personal development through in-house and external training
- Flat hierarchies, with open, supportive and friendly corporate culture and direct communication channels
- An office in the heart of Essen, easily accessible by public and private transport, surrounded by cafés, restaurants and museums
